# LINDELL PLUGINS

ANALOG FEEL IN A DIGITAL WORLD

## Introduction

Congratulation on purchasing the Lindell audio ChannelX channel strip.

- 6X-500 preamp and filters
- 7X-500 FET compressor
- PEX-500 passive EQ

## User interface

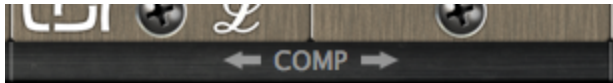

### Overview

The ChannelX plugin contains 3 plugins :

- 6X-500 preamp and filters plugin
- 7X-500 FET compressor
- PEX-500 passive EQ

Refer to these individual plugins manuals for more information on how to use each of them.

### Modules order

The order of the modules in the rack can be changed using the arrow buttons at the bottom of each module.

## Company

"Lindell Audio" was started 2010 by record producer Tobias Lindell. Resident producer at Bohus Sound Studios. <http://bohussound.com/> . He set out to design recording equipment to satisfy his own way of working. Developing functions and user interface that didn't exist on the market.

Our goal as a gear manufacturer is simple; Produce recording equipment, designed by engineers for engineers. Our level of details and quality is just top notch...

## Credits

Concept and Design: Tobias Lindell

Algorithms, Design and GUI: Emmanuel Dubecq. LSR audio

Tests: Plugin Alliance
